NEWMAN CATHOLIC COLLEGE, QLD

Fitting out a purpose-built school demands a unique approach and precise planning to meet the students' changing needs through different ages and task orientations. We worked closely with the client from the start, offering 3D modelling of the spaces to simulate how the furniture would fit within.

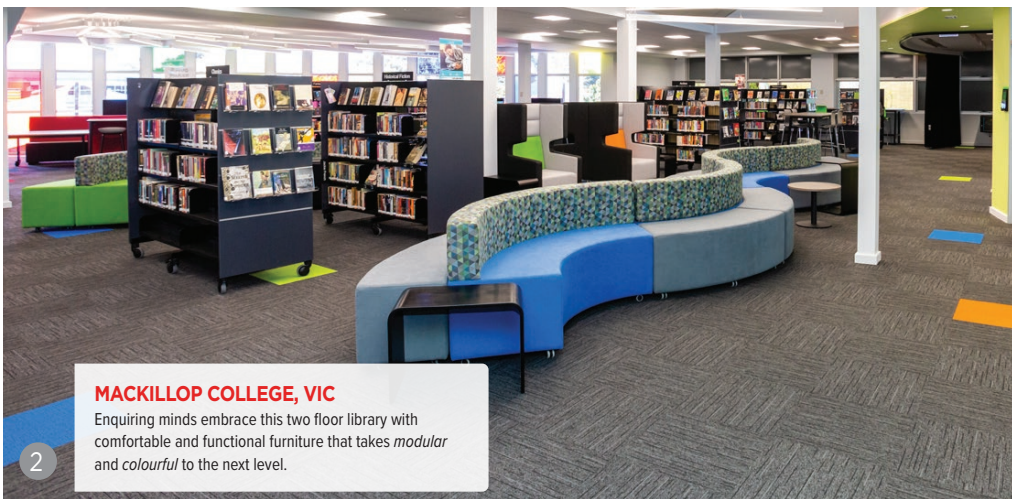

PARRAMATTA WEST STATE SCHOOL, NSW

Custom soft-seating featuring a range of specified fabrics, a combination of standard and custom student seating and desking across learning spaces, a hall and staff breakout areas culminate in functional, colourful and collaborative spaces.

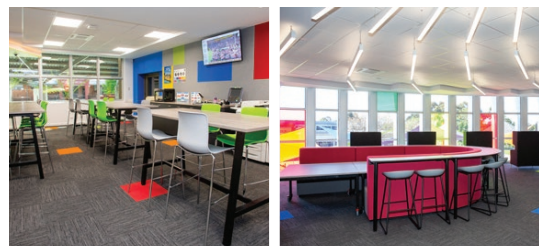

ST. GREGORY'S JUNIOR SCHOOL, NSW

The bright pops of colour help to make the space warm and inviting, while the flexible and height-adjustable desking makes it easy for teachers and students to build a space that works for them when they need it most. Functional boardroom and staff breakout areas complete the fitout.

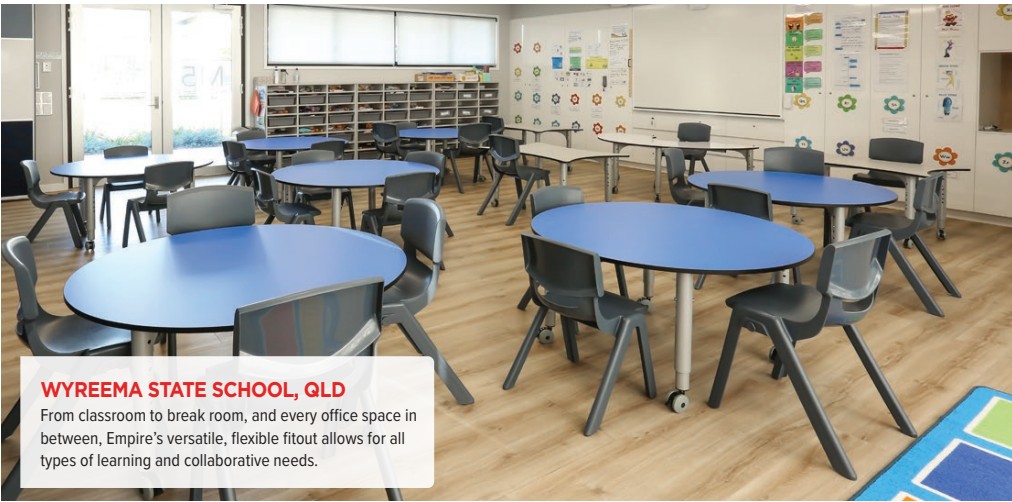

MACKILLOP COLLEGE, VIC

Enquiring minds embrace this two floor library with comfortable and functional furniture that takes modular and colourful to the next level.

► Modern Learning

WYREEMA STATE SCHOOL, QLD

From classroom to break room, and every office space in between, Empire's versatile, flexible fitout allows for all types of learning and collaborative needs.

COORPAROO SECONDARY COLLEGE, QLD

This client was inspired by Empire's colourful and durable education furniture range and requested a fitout for ten classrooms. The result was a calm yet inspiring setup in blues and greens, focusing on modularity and flexibility for all types of learning.

BUNDAMBA SECONDARY SCHOOL, QLD

Using Empire's free space planning and design service, the client was able to visualise the completed fitout in 2D, 3D and renders to ensure it met their needs of functional and flexible spaces that can be used for individual learning and interactive learning in group formats.

REDBANK STATE HIGH SCHOOL, QLD

Modularity and task focused spaces were key for this design. The bright pops of colour requested by the client were easily satisfied by the education range, especially when applied in a rainbow array to provide an appealing, engaging palette for young learners.

EDCO Cantilever Chair

Modern ergonomically designed cantilever chairs absorb the bounce of active children, so teachers don't have to. The robust seat surface is easy to clean and resists scratches. The C-frame makes raising the chairs on desks and tables quick and safe. Glides provide stability and protect floors from abrasion.

A convenient grip hole in the seatback makes carrying this lightweight chair effortless. The chair is available in 3 seat heights according to DIN EN 1729.

	Overall Height	62 cm	68 cm	79 cm	82 cm
	Recommended Table Height	59 cm	64 cm	71 cm	76 cm

► Comfortable Seating with Flex

Born from the collaborative efforts of architects, interior designers, educators, product designers and furniture manufacturers, Edco chairs are the result of years of research into the movements, habits, uses and misuses of students.

These insights have led to the careful selection of materials, ergonomic design and durable construction that make Edco chairs an ideal student seating solution.

Edco chairs maximise sustainability and minimise maintenance costs with replaceable glides, shells and frames.

Sturdy light metal frame

Colour codes refer to different seat heights according to DIN EN 1729.

EDCO 4 Leg Stool

The Edco stool is a versatile solution for school science labs, libraries and anywhere that requires bench seating; available in three heights.

- Ergonomic and flexible back with a leaning seatback can help promote correct posture with high benchtops.
- Robust seat surface resists scratches and is easy to clean.
- Glides provide stability and protect floors from abrasion.
- Comfortable footrest.
