Project Solutions...easier with empire!

We deliver customised project solutions
to meet your design brief & budget.

The changing way of work

The way we work in Australia is changing, which is why many offices are complementing their traditional cubicle or hot-desk set-ups with activity-based working (ABW).

The range of ABW Seating meets the needs of the modern Australian organisation - from communal breakout lounges to semi-private pods for focused work. Stylish, flexible and incredibly cost effective, ABW Seating is the smart choice for the 21st-century business.

The new kind of **workplace** **seating**

Featuring a range of booths, lounges, ottomans, focus pods and visitor chairs, our activity-based modules can be combined and customised to meet the diverse needs of any modern-day enterprise.

The seats are soft, supportive and available in a variety of colours, from classic blacks and greys to vibrant reds, greens and blues. Businesses can even supply their own fabric for the ultimate in custom seating.

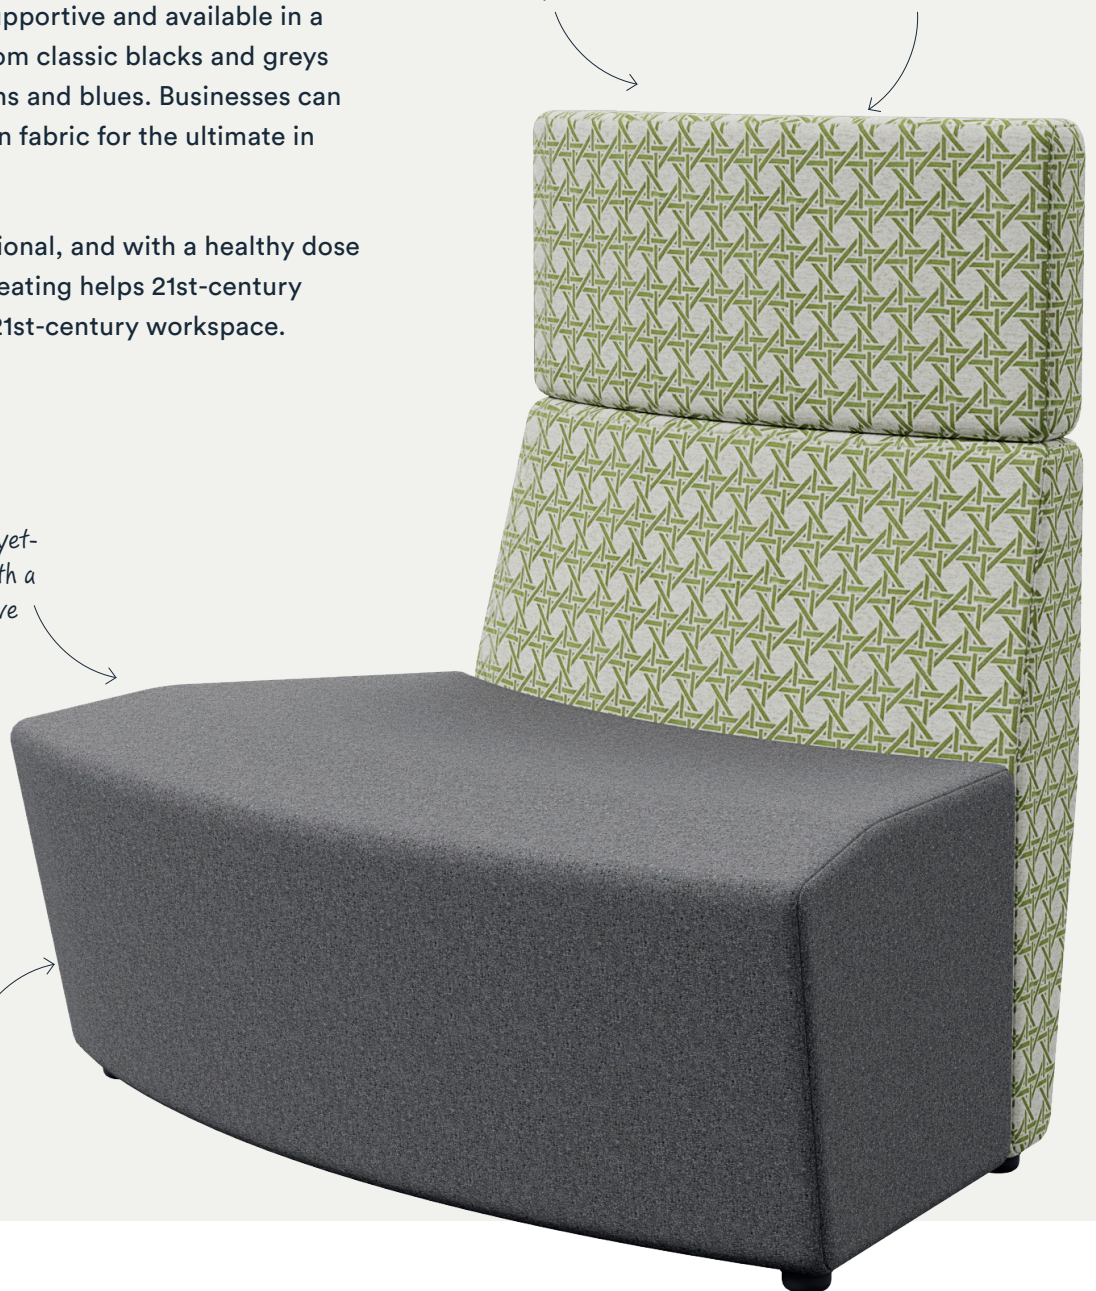

Cost-effective, functional, and with a healthy dose of originality, ABW Seating helps 21st-century businesses create a 21st-century workspace.

Customised configurations to meet the needs of any business

Mix and match from striking house fabric colours, or BYO fabric to match your existing decor

Covered in soft-yet-sturdy fabric with a subtle linen weave

Manufactured in Australia, with a six week lead time

Benefits of an **activity based workplace**

Our selection of ABW Seating is built for flexibility, efficiency and style.

Valuable & Flexible Fit-outs

ABW Seating adds value to a space. It is easy to move, can be combined with traditional workstations and gives you the flexibility to alter your office space as your project or workforce changes.

Collaboration

Improves collaboration and knowledge sharing – teams can have a catch-up in a pod or breakout area, in addition to formal meeting rooms.

Concentration

Enhances concentration for focused tasks. Open-plan offices are great, but some people find background noise distracting. Providing ‘focus rooms’ lets staff have a quiet space for tasks that require serious concentration.

More Active Employees

Moving between areas depending on their current task means staff are less sedentary during the day. That encourages better health and can reduce sick days.

Empowers Staff

We all have different needs and preferences around our working habits. Activity-based working recognises this and lets staff decide how and where they work best for each task.

Attract and Retain Staff

Activity-based working is fast becoming a major selling point for recruitment. Increased choice, better interactions with colleagues and a more appealing office environment improves employee satisfaction and helps businesses attract and retain staff.

Amy Wing

Amy Wing is a comfortable, flexible and versatile soft seating solution where employees can escape workplace distractions. Boasting a creative form, Amy Wing is characterised by unique wings that function as a quiet space for thoughtful deliberation and focused discussion. Stylish 120mm chrome feet further enhance its appeal.

Yardley Standard

The cleverly designed Yardley offers the mobility demanded of activity-based work whilst allowing for privacy.

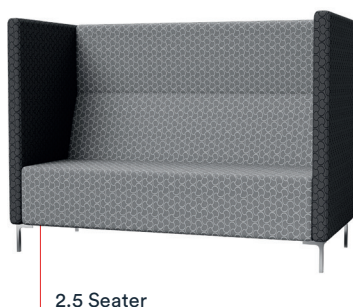

The Yardley sits proudly on 120mm high chrome feet and is offered in two back heights for added flexibility. The standard back defines a place to work or relax, whilst the tall back provides added privacy for an important conversation or solitary concentration.

Arcadia Tall

For added privacy, extra back and neck support, and comfort, the Arcadia is also available in a tall version. The height of the back provides a semi-enclosed, cocoon type working environment enabling persons to have 'their own space' amongst a busy workplace. The taller version is ideal for activities requiring heightened focus and concentration, or even phone discussions.

Elixir Tall

For added privacy, extra back and neck support, and comfort, the Elixir is also available in a tall version. The height of the back provides a semi-enclosed, cocoon type working environment enabling persons to have 'their own space' amongst a busy workplace. The taller version is ideal for activities requiring heightened focus and concentration, or even phone discussions.

Tall back provides a semi-enclosed space

Florence

Standard

Florence modular seating is ideally formed in a large sitting area where teams work, relax or collaborate. Florence is an eye-catching design mounted on 120mm high chrome feet that shouts creativity. The standard back option with the addition of a matching ottoman provides an open invitation for group collaboration. The tall back alternative forms creative hubs for added seclusion, concentration and privacy.

3 Seater

Features:

Large range of modular configuration options

Options to add rectangular shaped arms and matching ottoman

Set the tone: colour options

Choose from our Caprio, Cashmere and Melamine House Colour Ranges to match an existing space or add bright inspiration!

House Colour Ranges

The Caprio fabric range offers a sense of style, elegance and awe. The Caprio is a high performance textile suitable for heavy commercial applications.

The Cashmere fabric range, by Wortley Group, is a beautifully soft, textured plain woven in 100% Polyester. Featuring a lightly brushed surface, Cashmere is a soft yet high performance textile suitable for commercial applications.

Note: Due to many factors, but not limited to the following: customer monitor calibration and printing processes colours represented within this brochure are indicative only. Please request a sample swatch if unsure about colour accuracy.

The melamine worktop colour range offers a selection of versatile finishes inspired by natural colours and textures.

Project Task Chair Data

The Dart combines comfort, aesthetic styling and functionality.

Featuring a supportive soft touch mesh back, the Dart provides a flexible and breathable surface with height adjustable lumbar support. The Dart is available in a black mesh back, black frame and black ABS nylon base. The tilt lock mechanism and gas height adjustment ensures ergonomic comfort for users.

Showcasing the latest in mesh technology, the Dart creates a durable yet highly comfortable back.

Boasting an easy to use Tilt Lock mechanism that provides seat height adjustment and 3 point back tilt adjustment on one lever, and ensures the user of complete comfort throughout the range of movement.

Project Task Chair Eaton

The Eaton Mesh Task chair is elegant with its striking patterned mesh back and smooth clean lines. The chair features an ergonomically shaped back with soft touch double weave mesh, and height adjustable lumbar for extra comfort providing full even support on the lower back.

The moulded high density seat with its soft waterfall edge and seat depth adjustment as a standard make this chair a very comfortable place to be.

Boasting automatic Tilt Tension adjustment enables the user to move intuitively to their own specific body weight without having to adjust the tension manually. Available in a black or white frame it will certainly be a standout in the office.
