Acer Table Range

Many table settings are not adaptable to changing demands and educators are forced to work around their furniture's limitations.

It was this design flaw which inspired the innovation of our Acer Table Range. Facilitating vast permutations of table configurations in both individual and group-use contexts, our Acer Tables are perfect to liven up and improve the functionality of your space. The range includes fixed, mobile, height-adjustable and flipping frame systems, and modular top shapes that can evolve to include multiple users on demand.

The strength and flexible nature of our frame systems have enabled us to produce highly unique tables, to the extent that if you have a custom table shape in mind, we are confident our frame systems can bring your idea to life!

Check out the quality of our Acer Tables!

They're flexible and strong, perfect for sustained use in any interior environment!

Push-Pin Height Adjustable

With high-strength 1.6mm gauge steel and a high tensile push-pin system, our legs allow 5 different table height options, without sacrificing product stability or integrity. The Acer leg has a 60mm diameter (far superior to similar products at 40mm) ensuring no movement or rattle.

Mobile Lockable Wheels

Standard with mobile, height adjustable and flipping frames, our mobile castors make reconfiguration a breeze - once you've found the perfect spot, simply lock the castors and you're set!

Optional Glides

Glides can be interchanged with castors. All height adjustable tables are available with four glides or as a combination of two glides and two castors.

Top Quality Laminates and ABS Edging

Our table tops come standard with quality laminate finishes and high-impact ABS edging, to ensure that your top withstands your day-to-day activities, with little sign of wear.
